

Honorary member 2019 Professor Robert Morgan

Professor Morgan had his IR training at different hospitals in London, as well as a fellowship in Texas, USA. He has special interest in endovascular treatment of aortic, peripheral and visceral arterial and venous disease. Presently he has a position as consultant and head of department in St George's Hospital in London.

He has published over 100 peer reviewed articles and many bookchapters and presentations over the years.

In CIRSE professor Morgan has had several positions as, scientific program chairman, chairman of the EBIR committee, treasurer and president 2017-19.

He is also co-editor of the journal CVIR.

At the Seldingermeeting of 2019 in Umeå, Sweden he contributed with his vast experience to the meeting and was awarded the honorary membership.

Dr Morgan has stated "**Life is never dull as an IR**"!
